

Your Australian Electricity Supply Industry (ESI) Skills Passport

What is an Australian ESI Skills Passport?

- This Passport acts as an industry consistent portable record of your training, authorisations and inductions.
- Passports will be issued to people who:
 - Hold a written authority issued by a Network Operator to access a Network.
 - Are required by a Network Operator to undertake tasks requiring training specified in the Australian ESI Skills Passport.
- Only one Passport shall be issued to any one person at one time.
- This Passport is issued with a unique number.
- The Network Operator whose Network you are working on for the majority of time will issue your Passport.
- You are responsible for:
 - Ensuring that the information in your Passport is correct and maintained.
 - Having it with you whenever you require access to a Network.
 - Presenting it on request (e.g. audit).
- This Passport does not guarantee access to a Network. Network access is always at the discretion of the Network Operator.

Lost Passports

- Lost Passports are to be reported to the Network Operator whose Network you are currently working on.

Passport Entries

All expiry dates in this Passport should meet the relevant Network Operator's frequency.

Where there is no course description, the course should be handwritten in the available space.

Please refer to detailed information regarding Passport entries over page.

Privacy Statement

Your personal information provided by you will only be used in the management of the Australian ESI Skills Passport, and will not be used for any other purpose or distributed to any other persons and or organisations without your written permission.

Passport Entries *continued*

National Competency Standard Units

ESI SAFETY RULES		UETDRRF01A
Date of Training: 27 / 2 / 2012	RTO: ENERGY SERVICES	
Trainer/Assessor Name: Grant Spriggs	Signature: Grant Spriggs	

The most recent version of these agreed National Competency Standard Units, (CSU's) must be delivered by a Registered Training Organisation (RTO) which has that CSU within their scope of registration and a Statement of Attainment issued. There are no expiry dates as CSU's do not expire. However these entries shall be matched by a refresher training equivalent entry on pages 9 - 51.

All entries in these fields shall be stamped and signed by the trainer / assessor on behalf of the RTO or a Network Operator Validation Officer.

ESI Training

HV LIVE WORK GLOVE & BARRIER		Voltage	33kV
Date of Training: 20 / 2 / 2012	Training Provider: Ergon Energy		
Trainer/Assessor Name: Ray Boland	Signature: R. Boland		

Where there is no CSU code (e.g. UETDRRF05A) or course description in the heading, the requirements for this training shall meet the relevant Network Operator's requirements. Entries recording refresher training shall be stamped and signed by the Certificate IV Workplace Trainer/ Assessor, the Training Provider or a Network Operator Validation Officer at the successful completion of training.

HS&E Training

TRAFFIC MANAGEMENT	
Date of Training: 14 / 2 / 2012	Training Provider: GippstAFE 
Trainer/Assessor Name: MICK DEGRAAFF	Signature: Mick DeGraaff

HS&E Training shall meet the relevant Network Operator requirements. Entries recording refresher training shall be stamped and signed by the Certificate IV Workplace Trainer/Assessor, the Training Provider or a Network Operator Validation Officer at the successful completion of training.

Authority Training

PERSON IN CHARGE	
Class: <i>Powerlink</i>	
Date of Training: 1, 3, 2012	Training Provider: <i>Powerlink</i> 
Trainer/Assessor Name: <i>Jimmy Thornton</i>	Signature: <i>J. Thornton</i>

Authorities training shall meet the relevant Network Operator requirements.

Entries recording Authority training shall be stamped and signed by the Certificate IV Workplace Trainer/Assessor or a Network Operator Validation Officer at the successful completion of training.

Network Authorities

DS (DISTRIBUTION SWITCHING)

Class: *Authorised to carry out high voltage switching, earthing and issue electrical access authorities on:
All Distribution field apparatus, including metal enclosed switchgear and the underground network.*

Date of Authorisation:

15 / 2 / 2012

Network Operator:

UNITED ENERGY

Responsible Officer Name:

ADAM BEEL

Signature:

Adam Beel

Network Authorisations are dependant upon an equivalent training record being recorded in the Passport.

Entries for Authorities shall be signed and stamped by the issuing Network Operator or a Network Operator Validation Officer.

Inductions

Induction Description:

HSE and Network Induction

Date of Induction:

4 / 2 2012

Network Operator:

CitiPower / Powercor

Inductor Name:

Pam O'Neill

Signature:

Pam O'Neill

The induction type shall be identified in the 'Description' field, e.g. Network / Safety / Site.

Entries recording Inductions shall be stamped and signed by the facilitator or a Network Operator Validation Officer at the completion of the Induction.
